FIGHTER 85

FIGHTER 85

Low profile tractor with differentiated wheels and short wheel base.

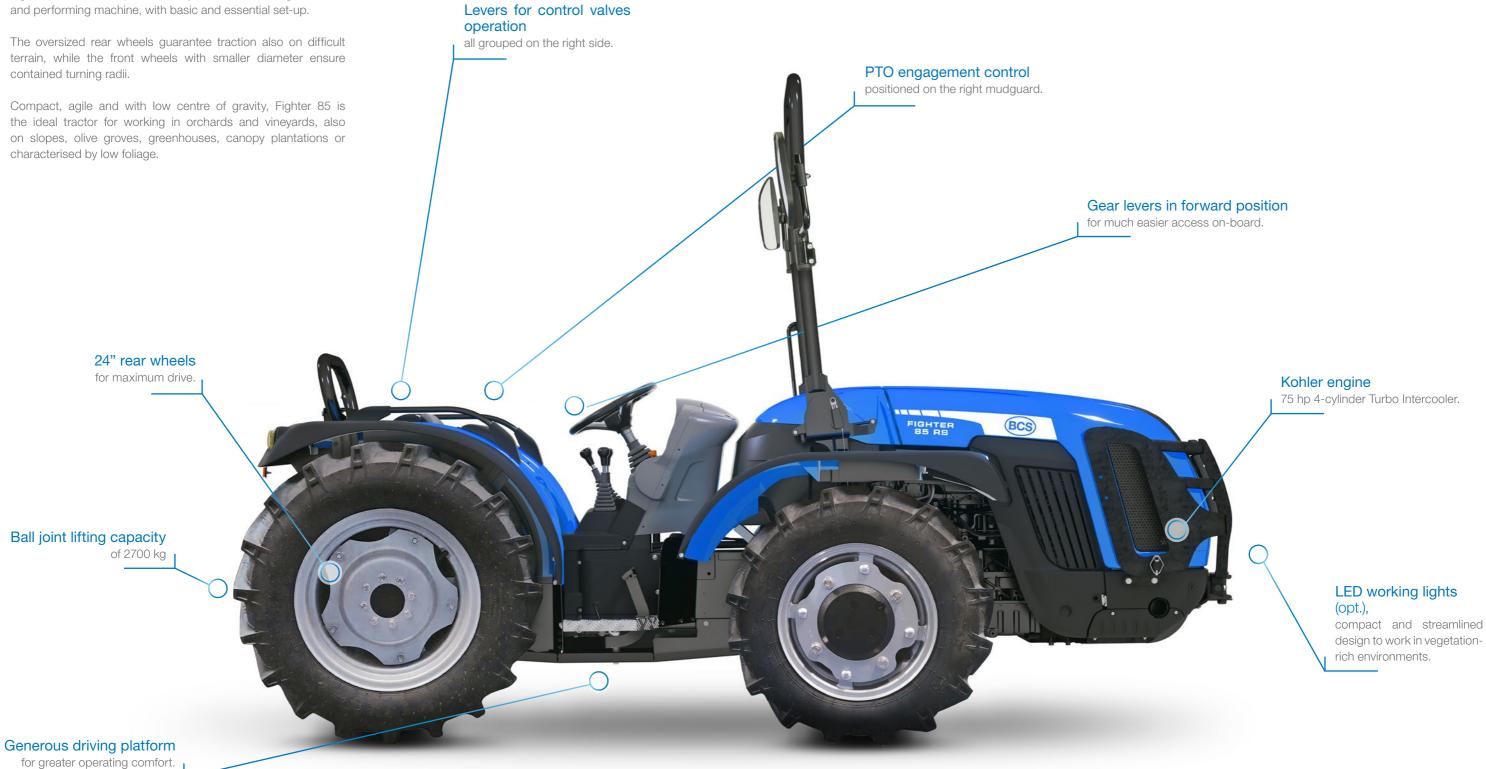

Fighter 85 was developed to satisfy customers looking for a solid and performing machine, with basic and essential set-up.

terrain, while the front wheels with smaller diameter ensure contained turning radii.

the ideal tractor for working in orchards and vineyards, also on slopes, olive groves, greenhouses, canopy plantations or characterised by low foliage.

WIDE RANGE OF OPTIONALS

Rear lift with position and draft control, hydraulically controlled upper link and tie rod link arm, hydraulic circuit with increased flow rate for lift and control valves, front bumper, adjustable steering wheel, Self Cleaning System™, front weights and for wheels, cast iron flanges for 20" and 24" rear wheels.

FIGHTER 85

CLEAN POWER

Fighter 85 is equipped with a **75 hp 4-cylinder Turbo Intercooler Engine** with particulate filter, that BCS Group worked on in collaboration with Kohler for an advanced regeneration strategy guaranteeing maximum performance and reducing machine downtime to a minimum.

The rpm is electronically controlled quickly by an hand lever and a button for memorize and recall the set speed.

ERGONOMICS AND COMFORT

The driving position was designed to combine ergonomics and comfort with close attention to the layout of the controls according to the logic applied to open field tractors.

The new work station features all operating levers for control valves and lift positioned on the right side, also in the version with position and draft control, and the right mudguard now has an electro-hydraulic control for PTO engagement.

Accordingly all of the controls for hydraulics can be easily used by the operator with his/her right hand, while the left hand stays firmly on the steering wheel.

Also, from the seat the operator has a complete and unobstructed view of the rear implement as well as the machine and wheel track.

The generous platform and the greater seat travel increase the space for the lower limbs and allow optimal use of the pedals.

Access to the driver's seat has been made much easier by the forward position of the gear and reverser levers.

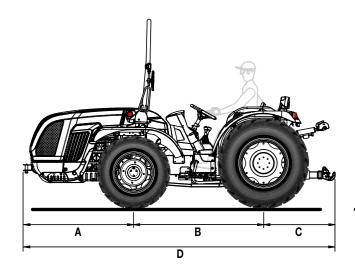

The cushioned and adjustable seat, based on the operator's weight, and the **height-adjustable steering wheel** (opt.) help alleviate some fatigue even after many hours of work.

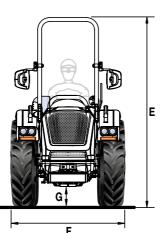

FIGHTER 85 RS

Transmission clutch Multidisc in oil bath with hydraulic control DIFFERENTIAL Front and rear. Differential lock: front and rear simultaneously or rear only with electro-hydraulic control AXLES Front with planetary reduction units and rear with bull-gear units	
DIFFERENTIAL Front and rear. Differential lock: front and rear simultaneously or rear only with electro-hydraulic control AXLES Front with planetary reduction units and rear with bull-gear units	
AXLES Front with planetary reduction units and rear with bull-gear units	
REAR DTO Independent from the positive and sunchronised with the forwarding good. Negative enfects budged to stop the DTO	
independent from the gearbox and synonium sed with the lorwarding speed. Negative safety flydraulic brake to stop the PTO	
PTO clutch Multidisc in oil bath with electro-hydraulic control	
PTO rotation speed (rpm) Standard: 540/540E - Optional: 540/1000	
HYDRAULIC SYSTEM Dual circuit with independent pumps and heat exchanger	
Flow rate to the hydroguide and the electro-hydraulic controls (I/min) 33.5	
Flow rate to the lift and the control valves (I/min) 29.5 (optional oversized pump with 51 I/min flow rate)	
Maximum hydraulic pressure (bar) 180	
REAR CONTROL VALVES Mechanically controlled	
Standard 1 double-acting with float + free flow oil return (total 3 hydraulic outlets) Optional and in addition to the standard	
ones 2 double-acting (total 7 hydraulic outlets) or 1 double-acting and 1 double-acting with lockable position (total 7 hydraulic outlets)	
REAR LIFT By two external rams. Standard: raising/lowering - Optional: position and draft control	
3-point implement hitch Standard: Normal couplings cat. 1 and 2. Optional: fixed arms with quick-couplings cat. 1 and 2 or L-shaped arms with quick-coupling and 2	gs cat. 1
Third point tie rod Standard: with manual adjustment - Optional: hydraulically controlled upper link and tie rod link arm	
Ball joint lifting capacity (kg) 2700	
DRIVING POSITION Monodirectional with footstep driving position	
Steering wheel Standard: fixed - Optional: height adjustable With safety belt and man-on-board sensor. Standard: comfort seat with adjustable spring tension according to the operator's weight - Option	al· 'Kah'
Seat Will salety bett and main-on-board sensor. Standard, comfort seat with aujustable spring tension according to the operator's weight - Option lowered seat Multidisc in oil bath with mechanical control, acting on the rear wheels with automatic engagement of the 4-wheel drive. Independent manoe	
SERVICE BRAKES Indicated in the data with the real wheels with automatic engagement of the 4-wheel drive. Independent mande brakes acting on the rear wheels	
Parking brake Acting on service brakes	
STEERING Hydrostatic steering acting on the front wheels	
SAFETY Front homologated roll-bar with gas springs for easy lowering and lifting	
DASHBOARD With TFT colour display showing: hours of operation, engine rpm, forwarding speed, PTO rpm, particulate filter clogging level, instantaneous consumption, battery voltage and current time. Analogue instrumentation complete with engine rpm, engine coolant temperature and fuel level indicator. Warning lights and acoustic alarm	uel el
ELECTRIC SYSTEM Battery 80 Ah / 12 V - Alternator 95 A	
Standard equipment Vehicle Control Unit, street light and indicator system, single-pole dashboard socket, rear 7-pin and 3-pin sockets	
TYRES 260/70R16*300/70R20 - 260/70R16*340/65R20 - 250/80-16*320/85R20 - 280/70-18*360/70R20 - 280/70R18*420/65R20 - 250/80-18*280/85R24 - 320/65R18*320/70R24 - 320/65R18*380/70R20 - 280/70R18*380/70R20 - 280/70R18*320/70R24	
TOW HOOKS (standard) Front - Rear CUNA cat. C adjustable in height	
Optional Rear tow hook: EC approved or EC with Slider frame or CUNA with Slider frame or EC tow bar with Slider frame	
RUNNING ORDER WEIGHT with roll-bar (kg) 2260	
ADDITIONAL OPTIONS Front bumper, beacon lamp, front LED working lights, rear adjustable working light, Self Cleaning System™, front weights kg 150, wheel weighted each, cast iron flange kg 50 each for 20" rear wheels, cast iron flange kg 70 each for 24" rear wheels	nts kg 50

 $H = Tyre \ width - I = Wheel \ track - F = Tractor \ width$

THE SERVICES

SPARE PARTS

A complete range of original spare parts, guaranteeddirectly by the manufacturer.

ASSISTANCE

A team of specialists, well prepared and available to assure an efficient and resolving service.

LUBRICANTS

We recommend to use the original PowerLube lubricants.

FINANCIAL SERVICES

Financial solutions to meet the credit requirements.

MADE IN ITALY
