

**EXTRA LOW  
ORCHARD  
MODELS**

**T SERIES**

#### **LOW, STREAMLINED AND ROUNDED**

All PERFECT rotary mowers comply with the highest level of current requirements in modern orchards and vineyards. In order to prevent damage to low hanging branches and fruit our T-models have a low, streamlined profile and round sides.

All generously overlapping cutting blades are driven indirectly by means of V-belts, mostly with automatic springloaded belt tensioners. This flexible drive system protects the gearbox from shock loads.

***Professional orchard model. Low, streamlined and rounded.  
No damage to overhanging branches.***

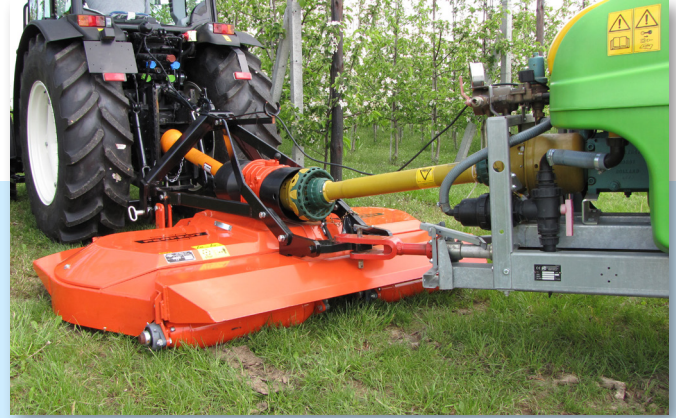

## T SERIES

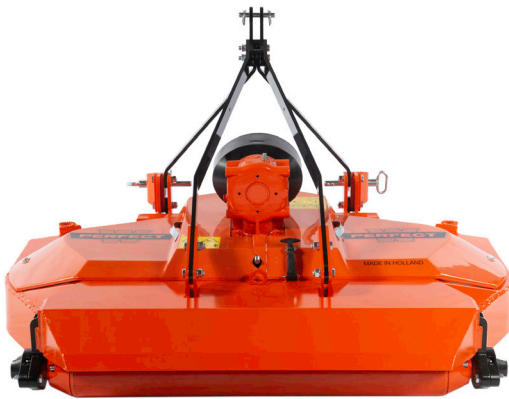

# Extra low orchard models

Either one or two front support wheels and rear rollers give the necessary stability and excellent terrain adjustment. loads.

Tmodels can be equipped with a unique "Perfect" mow-spray frame that has been designed so that both the front and the rear of the mower is able to move freely from the headstock.

### EXTRA'S

- Swing away blades
- "Perfect" pulling type headstock for front mount
- Double headstock for front and rear mount
- Mow-spray combination feature
