

Symbol of Perfection

- **3 completely newly developed flail mowers**
- **Total working width of 9.2 meters**
- **Generous overlap**
- **Fitting without conversion**

The TRIGANT was developed in cooperation with the Maschinenfabrik Bernard Krone GmbH and enables you to use the BIG M 450 not only for mowing grass, but also for mulching maize stubble or other heavier products.

For many years, PERFECT has been a well-known brand of rotary and flail mulchers and nowadays delivers high-quality Beneden-Leeuwen machines all over the world.

Maximum productivity and fuel efficiency. Lower fuel consumption / CO₂ emissions. Productivity and cost per hectare compared to a triple mower mounted on a tractor.

TRIGANT FLAIL MOWERS FOR KRONE BIG M 450

- The flail shafts are standard equipped with 2.2 kg heavy flails, including two counter knives
- The flail rotors are balanced twice, to assure a vibration free run at 1900 rpm
- Flail shafts and rollers are connected to the automatic lubrication system of the KRONE BIG M 450
- Mechanical cutting height adjustment
- Hydraulical groundpressure control from the drivers cabin
- Direkt drive by means of PTO shaft and 4 V-belts

The self-cleaning roller positioned over the entire width ensures optimum ground adaptation and prevents unnecessary ground contact and wear of the flails. On request, the TRIGANT can also be equipped with 2.7 kg Combi-Flails.

Standard 2.2 kg heavy flails. Less sensitive to stones. Mounted with 20mm bolts and replaceable wear bushes in the mounting ears.

Optional Combi-Flails with exchangeable cutting blade. Optimal size reduction in grass, maize or other heavy crops.

Technical specifications		Trigant
Total cutting width	cm	920
Cutting width side mowers	cm	320
Cutting width front mower	cm	349
Transport width	cm	330
No. of flails		60
Mowing height	cm	4-10
V-belts per mower		4
Rotor speed	rpmn	1900
Diameter flail rotors	mm	273
Diamter rear rollers	mm	219
